

PROCESS MODELER

Data Sheet

OVERVIEW

A business that has its operations aligned to its strategy, is agile, has control over its processes, runs efficiently, and maintains a well-trained staff, is indeed at the top of its profession.

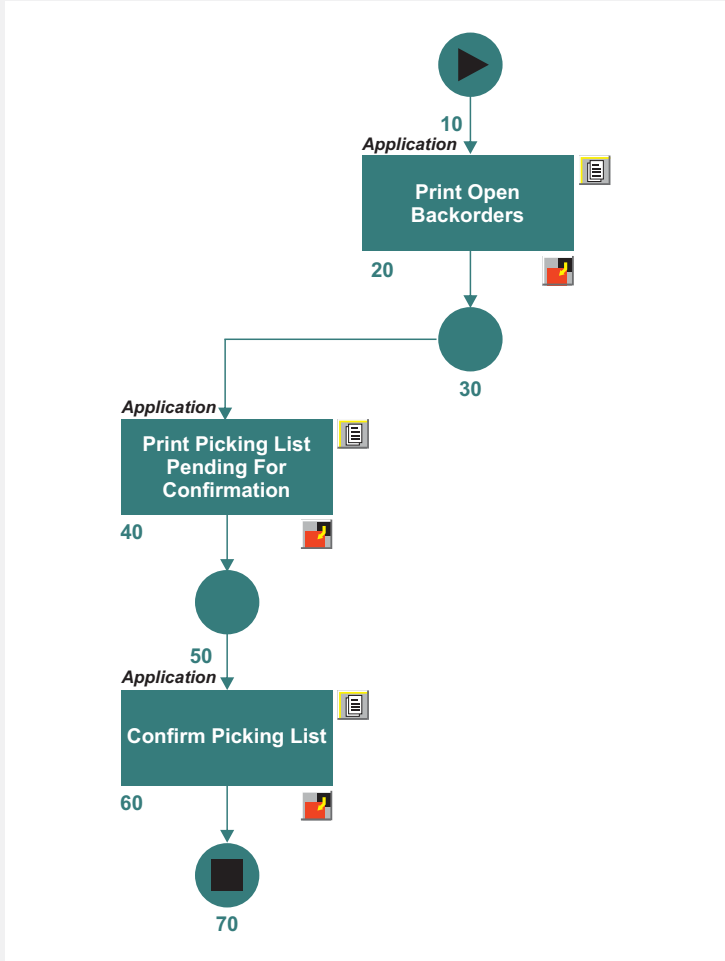

Business Process Modeling is an important best practice and tool that is critical for the long-term success of an organization. The e-Emphasys solution has a unique Business Process Model integrated in its core system, to help dealerships and rental companies. e-Emphasys Process Modeler enables dealerships to effectively adopt industry best practices, better leverage business system capabilities, and support a learning organization.

Built-in repository of best business practices cover every facet of dealership and rental business - right from parts counter to rental returns, accounts payable, etc. Every single process helps improve efficiency at all levels, thereby reducing the operating cost at every step. Some of the existing customers have reported a reduction of 30% in operating cost after implementation of e-Emphasys ERP.

e-Emphasys Process Modeler provides dealerships with the big picture of their organization. By modeling business processes, tacit knowledge is made explicit and inter-dependencies between departments and operating practices become visible.

e-Emphasys Process Modeler contains a repository of industry best practices, which dealerships can apply to their business. Based on the models selected and applied, the e-Emphasys Business System is configured automatically. Model changes can be automatically translated into user / role authorizations work-flow modifications.

e-Emphasys Process Modeler helps visualize and shape the mosaic of dealer organizations.

KEY FEATURES

- Repository of proven industry best practices
- Intuitive and flexible process modeling tool
- Tight integration of the process models, with ERP application work-flows.

BENEFITS

- Operations aligned with business strategy.
- Improved operational efficiencies.
- Increased control and consistency.
- Faster, effective and interactive training.
